

Fresh and Clean Urinal Screen

High Performance - Fragranced

It isn't just a urinal screen. It's a whole new "fragrance system!"

Fresh and Clean Urinal Screen provides a controlled and consistent fragrance release lasting up to 30 days.

Diversey has developed a non-Para-Dichlorobenzene (PDCB) Urinal Screen product, which has proprietary polymerized fragrances and polymer based delivery system.

This economical urinal screen can be an effective odor control mat for washrooms.

Features and Performance

- ▶ Each Fresh and Clean Urinal Screen weighs approximately 42 grams, containing more than 12 grams of fragrance ingredients.
 - ▶ Fresh and Clean Urinal Screen 's fragranced polymer has controlled and consistent fragrance release.
 - ▶ Many typical screens have their scent washed off by water.
 - ▶ Urinal screens are made with recyclable EVA polymer.(R7)
 - ▶ Custom fragrance and color.

Taski Fresh and Clean Urinal Screen Use Overview

Directions for use

The Urinal Pads can be recommended to customers based on below 3 customer needs:

For Odour Control

In this case the customer wants only to mask the odour so here we need to only provide the screens to cater to this application.

For Odour Control with water saving concept

In this case its suggested that we provide the urinal pads.

Ensure that the water connections are switched off.

Periodically recommend visual check and pour 1 Ltr of water to clear debris out of the screen.

Use R1 as per standard practice (once in a day or as per traffic).

Use R6 as per standard practice (once in a week or as per traffic).

For Odour Control with water less concept

In this case its suggested that we provide the urinal pads.

Ensure that the water connections are switched off.

Dilute 1% of Good sense odour eliminator.

Spray 5-6 times of the same in each urinal.

For Initial Treatment

Thoroughly clean the urinal pipe with Suma Drain. (Follow the SOP of Suma Drain usage).

Prepare 10% solution of Good Sense Odor Eliminator and spray on urinal bowl.

Cover the entire surface of the urinal pot and allow the chemical to work for 15 mins.

Rinse thoroughly with water and allow it to air dry.

For Regular Treatment

Disconnect the water supply to the urinal pot.

Place the urinal pad on the urinal pot.

Do not flush after every use.

Prepare 10% solution of Good Sense Odor Eliminator and spray on urinal bowl every six hours.

Do not pour water at any stage.

Replace the urinal pads when no smell emits from it. (approximately 20 days)
